LATTE PERFETTO

Professional Milk Frother

**PRE
MIUM
MILK
FRO
THER**

Description

It is simply impossible to imagine certain coffees without the perfect froth. Our premium LATTE PERFETTO milk frother provides the frothy white topping your coffee deserves at the push of a button! The automatically portioned frothing saves you time and enhances flavour. Temperature plays an important role in achieving the perfect froth. The milk frother maintains a constant temperature – even during continuous operation.

Standard features

- Constant temperate during continuous operation
- Save time thanks to automatically portioned frothing
- Save milk with dispensing as required
- Enjoy a range of products with 6 individually configurable buttons
- 4.3" colour touch screen

Optional extras

- Various milk coolers

Voltage (V)	Performance (W)	Weight (kg)	Width (mm)	Height (mm)	Depth (mm)	Boiler capacity (l)	Colour
230	2.700	22	160	510	380/ 450*	2,5	Black powder coat

* incl. drip tray

ALPINA LATTE PERFETTO PRO

Professional Premium Milk Frother

**THE
DAIRY
QUEEN**

Description

Whether you are having a quiet afternoon or the queues are out the door, this frother allows every barista to produce the perfect milk froth at any time – all at the press of a button. Gentle heating ensures the milk always reaches its sweet spot, the point at which the milk develops its sweet taste and fine creamy consistency. Not too hot, not too cold, not too runny and not too frothy – impressive quality every time.

With 16 individually configurable product buttons and 10 milk froth quality settings, this machine expertly crafts a wide range of mixed milk drinks. The PRO version also features an integrated 4.5-litre capacity milk cooler.

Standard features

- HACCP compliant
